A Monthly Statement of Negro Extension Work, 1928

U.S. Department of Agriculture

OCTOBER, 1928

Georgia State College of Agriculture

ATHENS, GEORGIA

ANDREW M. SOULE, President

EXTENSION DIVISION

J. PHIL CAMPBELL, Director

Cooperative Extension Work in Agriculture and Home Economics, Georgia State College of Agriculture and United States Department of Agriculture Cooperating. Distributed in furtherance of the Acts of Congress of May 8 and June 30, 1914.

Narrative Report--Men's Work  
P. H. Stone  
State Agent for Negro Extension Work

Enterprise Development Work

Corn:

The following quotation is taken from Agent B. S. Adam's report for October:

"Thirteen of the 5 acre demonstrations have been successful. These men are boasting of barns full of corn with ten men already reporting an average of forty-six bushels per acre. Prizes in the form of farm implements have been secured and a meeting has been arranged for the third of November to present the prizes."

Forty-eight farmers in Hancock County and 110 in Randolph County attended thirty field demonstrations in the selection of seed corn.

In Houston-Peach Counties, 200 adult demonstrators have gathered corn, averaging twenty-one bushels per acre. Agent O. S. O'Neal reports that practically all of these men have sufficient corn for home consumption for the next twelve-month period; and a few will have some to sell. He quoted one man as having 100 bushels to sell.

Agent Jas. C. Ralston of Liberty County reports yields on demonstrations ranging from 44 to 57 bushels per acre.

Agent Alexander Hurse of Ware County reports four demonstrations in treating corn for weevils.

The Annual Corn Show in the Colored Department of the Southeastern Fair, represented some of the work of every agent in the State. 437 ten-ear exhibits were on display and in the face of an unusually bad corn year, the quality far surpassed that of other years. The fact that in only two exhibits were mixed corn or cobs found, showed that the agents are not only exercising more care in accepting exhibits, but that farmers are learning the lesson of growing better corn from better selected seed.

Winter Legumes:

Every agent has worked to get as many acres of winter legumes planted this month as possible, with the following results to date: No. acres planted to Austrian Winter Peas, 131; No. acres planted to hairy vetch, 35; No. acres of austrian peas purchased, 2,670; No. pounds hairy vetch purchased, 326; No. demonstrations in inoculating seed, 42.

Small Grain:

The short corn crop has furnished a fine background for pushing

State Agent for North Carolina  
P. H. Stone  
Narrative Report--Men's Work

Enterprise Development Work

Copy:

The following quotation is taken from Agent P. H. Stone's report for October:

"Thirteen of the 15 acre demonstration have been successful. These men are planting of better fall of corn with ten men already reporting an average of forty-six bushels per acre. Prices in the town of late have been secured and a meeting has been arranged for the third of November to present the prices."

Forty-eight farmers in Hancock County and 110 in Randolph County attended thirty field demonstrations in the selection of seed corn.

In Houston-Peach Counties, 300 adult demonstrators have gathered corn, averaging twenty-one bushels per acre. Agent O. S. O'Neal reports that practically all of these men have sufficient corn for home consumption for the next twelve-month period; and a few will have some to sell. He quoted one man as having 100 bushels to sell.

Agent Lee O. Halston of Liberty County reports yields on demonstrations ranging from 44 to 57 bushels per acre.

Agent Alexander Hines of Ware County reports four demonstrations in treating corn for weevils.

The Annual Corn Show in the Colored Department of the Southwestern Fair, represented some of the work of every agent in the State. 437 ten-ear exhibits were on display and in the line of an unusually bad corn year, the quality far surpassed that of other years. The fact that in only two exhibits were mixed corn or cobs found, showed that the agents are not only exhibiting more care in accepting exhibits, but that farmers are learning the lesson of growing better corn from better selected seed.

Winter Legumes:

Every agent has worked to get as many acres of winter legumes planted this month as possible, with the following results to date: No. acres planted to Austrian Winter Peas, 151; No. acres planted to hairy vetch, 35; No. acres of Austrian peas purchased, 2,870; No. pounds hairy vetch purchased, 328; No. demonstrations in inoculating seed, 42.

Small Grains:

The short corn crop has furnished a fine background for planting

the small grain crop for next year.

Agent A. H. Hinesman of Bibb County writes: "Returning from the Southeastern Fair, I set about to get as many farmers as possible interested in a small grain campaign for winter planting. Have held three meetings over the county to this effect and as a result, thirty-five farmers have agreed to plant wheat and oats as a winter grain crop. I have purchased one hundred bushels of seed oats and wheat for the farmers and more than one hundred acres have been planted and there will be more planted."

In Houston-Peach Counties, 127 men have planted rye as a winter cover crop. Similar work is reported in Monroe, Ware, Clarke and Washington Counties, (28 persons having increased their small grain acreages in these counties to help meet the corn shortage.)

#### Hay:

The short corn crop has resulted in a bumper hay crop. Sixty-two corn demonstrators in Peach County have housed 248 tons of Peavine hay. Similar results with peavines, soy beans, velvet beans and native grasses, are reported in Clarke, Baldwin, Liberty and Washington Counties. Figures are not yet available, but it is likely that little Western hay will be purchased by Negro farmers in these counties.

#### Hogs:

No. demonstrations given in treating hogs for lice, 5; No. hogs in these demonstrations, 18; No. persons present, 15; No. feeding demonstrations started, 22; No. purebred hogs purchased, 3; No. hogs treated, 77; No. hogs treated for cholera, 8.

The third Annual State Meat Show held during the recent Southeastern Fair was, by far, the most creditable effort made in this direction. Its growth may be judged from the following: The first year, three counties were represented with 28 pieces of meat; the second year, five counties were represented with 63 pieces; this year, eleven counties placed 317 hams, shoulders and sides on display of a quality far superior to that of former years. This display of home-cured meat coming at the season when home-cured meat is rare, is attracting a great deal of attention to the effectiveness of the Extension program among Negroes and is encouraging others to take advantage of the lessons which Extension work teaches.

#### Dairying:

No. of dairy barns repaired, 2; No. pasture demonstrations started, 18; No. farmers selling sour cream, 33; No. culling demonstrations, 3; No. poultry houses cleaned, 4; No. demonstrations in treating lice and mites, 7.

The Second Annual Egg Show at the Southeastern Fair consisted of

the small grain crop for next year.

Agent A. M. Hissman of Bibb County writes: "Returning from the Southeastern Fair, I got about to get as many farmers as possible interested in a small grain campaign for winter planting. Have held three meetings over the county to this effect and as a result, thirty-five farmers have agreed to plant wheat and oats as a winter grain crop. I have purchased one hundred bushels of seed oats and wheat for the farmers and now have one hundred acres have been planted and there will be more planted."

In Houston County, 187 men have planted rice as a winter cover crop. Similar work is reported in Monroe, Grant, Oglethorpe and Washington Counties. (25 persons having increased their small grain acreage in these counties to help meet the corn shortage.)

#### May:

The short corn crop has resulted in a poorer May crop. Thirty-two corn demonstrations in Bibb County have produced 248 tons of Poinsett. Similar results with peanuts, soy beans, velvet beans and native greens, are reported in Clarke, Baldwin, Liberty and Washington Counties. Figures are not yet available, but it is likely that little Western May will be purchased by Negro farmers in these counties.

#### June:

No. demonstrations given in growing crops for June, 5; No. hogs in these demonstrations, 15; No. persons present, 15; No. feeding demonstrations started, 22; No. purchased hogs purchased, 3; No. hogs treated, 77; No. hogs treated for cholera, 8.

The third Annual State Fair was held during the recent Southeastern Fair was, by far, the most creditable effort made in this district. Its growth may be judged from the following: The first year, 1920, counties were represented with 28 pieces of meat; the second year, 1921, five counties were represented with 25 pieces; this year, eleven counties placed 217 hams, shoulders and sides on display of a quality far superior to that of former years. This display of home-cured meat coming at the season when home-cured meat is rare, is attracting a great deal of attention to the effectiveness of the Extension program among Negroes and is encouraging others to take advantage of the lessons which Extension work teaches.

#### July:

No. of dairy barns repaired, 2; No. pasture demonstrations started, 18; No. farmers selling sour cream, 33; No. cattle demonstrations, 3; No. poultry houses cleaned, 4; No. demonstrations in feeding rice and peas, 7.

The Second Annual Egg Show at the Southeastern Fair consisted of

seven county exhibits - each county exhibit consisting of thirty dozen eggs, besides a number of individual exhibits of ten dozen each. This display, according to the judges, was of a much higher quality than that of last year and is typical of the improvement noted in the field work.

### Marketing

<u>Commodity</u>	<u>Quantity</u>	<u>Sales</u>
Home cured meat	779#	\$ 272.36
Beans (snap)	56	189.40
Eggs	60 doz.	24.00
Hogs (live)	---	355.34
Miscellaneous products (Liberty County)	---	1,882.20

Poultry	---	48.00
Grain	135 Bu.	192.50
Butter	78#	23.40
Potatoes	60	60.00
Total		\$3,525.47

### Sanitation

School houses whitewashed, 1; houses painted, 1; houses screened, 1; pumps driven, 3.

### Fairs:

During the month, Extension Exhibits have been placed at the South-eastern Fair at Atlanta; the State Fair at Savannah and the following county and sectional fairs:

The Hancock Fair; the Baldwin County Fair; the Randolph County Fair and the Liberty County Fair. Through these, every Negro Extension worker has displayed some of the concrete results of his work to the public and hundreds of farm men and women, boys and girls, have felt the thrill of competition and fellowship which these displays encourage. Approximately \$3,000.00 in premiums were won, which is small in comparison to the value of the lessons which these exhibits teach the exhibitors as well as the public which comes to see them.

### New Agent:

Alexander Hurse, formerly teacher of Vocational Agriculture at Sandersville and Cairo, was appointed County Agent for Ware and Pierce Counties, with headquarters at Waycross, and began work there, October 1st.

Hurse is a graduate of the agricultural school of the Tuskegee Institute in the class of 1926 and is a native of Baldwin County,

above county exhibits - each county exhibit consisting of thirty boxes, besides a number of individual exhibits of ten boxes each. This display, according to the judges, was of a much higher quality than that of last year and is typical of the improvement noted in the field work.

		<u>Total \$2,252.47</u>

### Exhibitors

School houses whitewashed, 1; houses painted, 1; houses screened, 1; pump driven, 3.

### Fairs

During the month, Extension Exhibits have been placed at the South-eastern Fair at Atlanta; the State Fair at Savannah and the following county and sectional fairs:

The Hancock Fair; the Baldwin County Fair; the Randolph County Fair and the Liberty County Fair. Through these, every farmer Extension worker has displayed some of the concrete results of his work to the public and hundreds of farm men and women, boys and girls, have felt the thrill of competition and fellowship which these displays encourage. Approximately \$2,000.00 in premiums were won which is small in comparison to the value of the lessons which these exhibits teach the exhibitors as well as the public which comes to see them.

### New Agents

Alexander Hurd, formerly teacher of Vocational Agriculture at Sandersville and Cairo, was appointed County Agent for Ware and Pierce Counties, with headquarters at Waycross, and began work there, October 1st.

Hurd is a graduate of the agricultural school of the Tuskegee Institute in the class of 1926 and is a native of Baldwin County.

Georgia. He has made an enviable record wherever he has worked and should do well at Waycross.

### Boys' Club Work

#### Corn:

Agent A. H. Hinesman of Bibb County writes as follows: "During the month, I have visited twenty of these boys who grew corn as a project or development and assisted them in gathering and measuring their corn and they have measured up from twenty to sixty bushels per acre and some of the boys have made the only corn that was made on their parents' farm this year. And now their parents have been convinced that the Club Demonstration is the very thing and is better than the old hit or miss chance way they have been carrying on for years and failed each year."

Twelve boys from Chatham County placed exhibits of corn at the State Fair, winning \$23.50 in premiums.

In Washington County, three demonstrations have been given for club members in selecting seed corn.

All agents are busy gathering records of corn yields.

#### Soil Improvement:

Soil building is regarded as one of the fundamental lessons to teach along with crop production.

Agent Wm. R. King of Dougherty County reports seven soil building demonstrations started with boys in Austrian winter peas.

#### Hogs:

Five method demonstrations were given in treating hogs for lice, and five feeding demonstrations were begun.

Seven boys entered pieces of home-cured meat in the Third Annual Meat Show in Atlanta, one of them winning the first prize for the best ham in the show.

Agent H. F. Wilson of Monroe County writes: "Monroe County is short of livestock, there being far too few hogs owned by the colored people. There are fifteen purebred gilts owned by club members. These are being bred to bring February and March litters, the aim being to increase the supply of hogs in the County."

### Miscellaneous

#### Fairs:

Club boys had special exhibits of corn, cotton, potatoes and meat at

Georgia. He has made an enviable record whatever he has worked and should do well at whatever.

### Boys' Club Work

#### General

Agent A. E. Hinman of Elbert County writes as follows: "During the month, I have visited twenty of these boys who grow corn as a project on development and assisted them in gathering and marketing their corn and they have measured up from twenty to sixty bushels per acre and some of the boys have made the only corn that was made on their parents' farm this year. And now their parents have been convinced that the Club Demonstration is the very thing and is better than the old hit or miss chance way they have been carrying on for years and failed each year."

Twelve boys from Graham County placed exhibits of corn at the State Fair, winning \$25.00 in premiums.

In Washington County, three demonstrations have been given for club members in selecting seed corn.

All agents are busy gathering records of corn yields.

#### Soil Improvement

Soil building is regarded as one of the fundamental lessons to teach along with crop production.

Agent W. E. King of Dougherty County reports seven soil building demonstrations started with boys in August and winter past.

#### Shows

Five method demonstrations were given in treating hogs for lice, and five feeding demonstrations were begun.

Seven boys entered pieces of home-owned meat in the Third Annual Meat Show in Atlanta, one of them winning the first prize for the best ham in the show.

Agent H. F. Wilson of Monroe County writes: "Monroe County is short of live-stock, there being but few hogs owned by the colored people. There are fifteen purchased gifts owned by club members. These are being bred to bring February and March litters, the aim being to increase the supply of hogs in the County."

### Miscellaneous

#### Fairs

Club boys had special exhibits of corn, cotton, potatoes and meat at

all of the fairs held this month.

Some of the results of these efforts may be inferred from the following comments from various reports:

Bibb County, A. H. Hinesman, Agent: "It is very gratifying to report that the Bibb County Club Work stood out among the other counties at the big Southeastern Fair in Atlanta, Georgia, the first week in October. Out of five, first prizes offered for boys' club work, Bibb County took three and out of the five third prizes offered for boys' club work, Bibb County took two and also won one fourth and one seventh prize."

Dougherty County, Wm. R. King, Agent: "Forty-three visits have been made to club members urging them to complete their records and to look after their accounts, also urging them to plant some winter legumes. Seven demonstrations have been given in treating Austrian peas where club members planted one acre each."

Houston-Peach Counties, O. S. O'Neal, Agent: "October 4th, was 4-H Club Day at the Southeastern Fair, Atlanta. I took eleven of my club boys to this great fair. They took part in the program, which was a very fine one. Dr. Farrell, of the Washington Office, spoke to them. These boys were shown the quality, arrangement, and worth of the exhibits. This was a great day for club boys. Each was inspired by what he saw and heard. Five of these club boys won prizes amounting to \$27.00.

Randolph County, J. P. Powell, Agent: "Club boys and girls won nearly all of the premiums awarded the Junior Department at the Fair. Iverson White won three first prizes, leading all the other boys, and J. W. McGlockton followed with two prizes. Verneal Powell won one first prize. Mardesque Powell was among the girls winning two first premiums, also Alice Johnson won two first prizes and numerous other boys and girls did as well."

On Thursday during the Southeastern Fair, seventeen club boys who had done excellent work for the year, were given complimentary passes by the Fair management and had a chance to study the livestock and other exhibits, as well as to enjoy the midway.

At noon, a special club meeting was held in the Negro building, where Mr. G. E. Farrell of the Washington Office, in Charge of the Central States, made a most helpful talk.

NARRATIVE REPORT -- HOME DEMONSTRATION  
WORK

Camilla Weems, Negro District Agent  
October 1928

----

Food Production: Home Gardening: 175 new gardens were reported for the month. 5 club women planted patches of rye and other grain for poultry feed. The following reports from agents are typical of demonstration work done during the month of October:

Bibb County Agent reported: "We are striving to make all of our gardens year-round gardens. During the month, vegetables for winter use have been planted in 194 adult gardens and 361 junior gardens. Total 555 year-round gardens. 1643 pounds of dried beans and peas were gathered. Vegetables sold \$34.25; dairy products and milk 178.8 pounds sold \$15.38; poultry products sold \$23.75 - total \$73.38".

Laurens County agent reported: "Garden work was stressed this month. Our people are growing more and better gardens. 3 women have planted new vegetable gardens this fall. 2 pecks of onion sets have been planted. Collards, turnips, rape and mustard were planted. Garden products sold \$1.25; Poultry products sold \$5.95; dairy products sold \$3.00."

Peach-Houston Counties Agent reported: "(a) Gardens 50 members planted turnips, rape, kale, onions and mustard seed. The gardens have taken on new life. 75 members have very good gardens, the same consist of collards, butter beans, onions and turnips. \$10.00 worth of vegetables were sold by club members. (b) Poultry-- \$20.00 worth of eggs and chickens were sold during the month. 10 chickens were treated for sore head. 5 club members planted rye in order that their chickens might have green feed during the winter months."

Polk County agent reported: "Adult and junior club members fall gardens are looking fine. Members are eating turnips, salad and collards. Brussell sprouts, the new vegetable that was planted this year, is doing fine. Some members are still canning okra, pumpkin, peppers, pickling and making jelly. Members are digging their Irish and sweet potatoes. One club made four bushels of Irish potatoes on their school garden plot."

Washington County agent reported: "22 new gardens have been started this month. Onions, cabbage, mustard and rape were planted. 146 chicks were hatched; 3,580 pounds of milk; 480 pounds of butter; 220 pounds of cream produced; \$152. worth of dairy products \$168. worth of poultry products and \$132. worth of vegetables sold. \$13.25 worth of peanuts, walnuts and hickory nuts sold."

RESEARCH REPORT ON THE PROGRESS OF THE

THE PROGRESS OF THE RESEARCH REPORT

The progress of the research report is as follows: The first part of the report is a general introduction to the subject. The second part is a detailed description of the methods used in the research. The third part is a discussion of the results of the research. The fourth part is a conclusion and a list of references.

The first part of the report is a general introduction to the subject. It discusses the importance of the research and the objectives of the study. It also provides a brief overview of the methods used in the research. The second part is a detailed description of the methods used in the research. It discusses the various techniques used to collect and analyze data. The third part is a discussion of the results of the research. It presents the findings of the study and discusses their implications. The fourth part is a conclusion and a list of references.

The results of the research are as follows: The first result is that the research has shown that the methods used in the study are effective. The second result is that the research has shown that the results of the study are consistent with the findings of other studies. The third result is that the research has shown that the results of the study are consistent with the findings of other studies. The fourth result is that the research has shown that the results of the study are consistent with the findings of other studies.

The research has shown that the results of the study are consistent with the findings of other studies. The research has shown that the results of the study are consistent with the findings of other studies.

Newton County agent reported: "100 baby chicks hatched; 42 dozen eggs collected and \$18. worth of poultry produce sold."

Home Dairying: 3,500 pounds of milk; 488 pounds of butter; 226 pounds of cream and 75 dozen eggs were reported. Chatham County reported: "100 pounds of milk was produced and 35 pounds of butter. The use of more milk in the daily diet is being stressed at every opportune time. 14 families pledged to use more milk in the diet."

Home Marketing: Sold: -- Garden products \$159.45; fruit \$3.00; poultry -- \$314.00; Poultry products \$34.25; eggs -- \$29.60 Butter \$86.25; milk -- \$12.44; miscellaneous dairy products -- \$162.00; miscellaneous products -- \$150.00 -- total \$950.99

Home Improvement: (a) Interior: 1 new 4-room house was furnished with new furniture throughout. (b) Exterior:- 1 4-room house was completed; one house was repaired; 1 front porch was built and 1 repaired; 1 set of steps was repaired; 4 barns and out buildings were built. (c) Landscaping: 10 homes improved the yards and planted shrubbery according to plans furnished by the agents.

Camden County agent reported: "1 new 7 room home completed and each room furnished neatly. A number of aprons, bloomers, baby caps, curtains and dresses reported made."

Jackson County reported: "The home beautification and kitchen contest is on and much interest is manifested by all concerned. For our county fair to be held next spring, valuable prizes are being offered for the best display and greatest variety of vegetables displayed from individual gardens. By this method, I hope to create more interest along the line of individual work."

Community Work: 38 school houses were cleaned; 163 school houses windows were washed; curtains for 10 school rooms were washed; 10 schools adopted individual drinking cups. Bibb County agent reported: "Last term, the club boys and girls made the home made floor oil and oiled 1 school room floor. They found that this kept dust down and improved the looks of the floor so much until this month the teachers (Mrs. Ida Brown, Principal; Mrs. Ida Johnson and Mrs. Mamie Jordan) with the help of the club boys and girls oiled 2 other rooms and the hall. The Board of Education painted the inside of all these rooms. This was the Cressville School. Mrs. Lula Lee, teacher at Stinsonville School, hearing of what the boys and girls with the teachers had done in Cressville, oiled two school rooms and the hall at Stinsonville. The Board of Education painted the school with the help of the boys and girls."

Liberty County agents reported: 1 4-teacher Rosenwald School completed, having 4 large class rooms, kitchen and dining room; 1 library room painted inside and outside."

State and County Fairs: Our exhibit at the Southeastern Fair this year was the largest and best ever put up before our people at the Southeastern Fair. More agents and other workers brought county exhibits and arranged them in a much more attractive manner than in other years. The county home demonstration agents made displays of canned products; dozens of eggs, meat, corn and clothing. The clothing consisted of the best county display of ladies' ready-to-wear; best county display of children's ready-to-wear and the best display of ready-to-wear articles for men and boys.

Bibb County agent reported: "The agent took an exhibit to Atlanta to the Southeastern Fair. We took 2nd prize on the 10 dozen individual egg display; 2nd on 4th year club display; 1st on hand made rugs and 5th on clothing display, amounting to \$56.00 "

Chatham County agent reported: "13 community clubs were represented at the fair. Premiums amounting to \$71.00 were won by these communities. It was said by the District Agent and many more that the exhibits were the best in the history of the work. A premium of \$150. was won by the county. The 13 communities played their part in helping the county to win the first prize."

Jackson County agent reported: "The 4-H clubs sent many things along the line of dresses, hats and various kind of basketry, embroidery, crocheting, knitting and individual canning and preserves, jellies for which they all won many prizes. The club girls from Jackson County won in cash prizes \$60.75; the women \$30.00 for the individual exhibits; \$25.00 for individual farm exhibit; their demonstrator \$23.00 which made a total for Jackson County \$138.75 "

Laurens County agent reported: "4 exhibits were taken to the Southeastern Fair. A canning exhibit; ladies' ready-to-wear exhibit; child's ready-to-wear exhibit; 10 dozen egg exhibit and county meat exhibit. Our canning exhibit merited first prize, the meat second, ladies' ready-to-wear fourth; child's ready-to-wear, second prize and 10 dozen egg exhibit, third prize. Exhibitors feel very proud of the splendid showing they were able to make at this great fair. They feel inspired to do better work in the future. A part of the exhibit was taken to the Georgia State Fair which merited third prize. We will not have a county fair this year, but plans are being made by our Junior Council to put on an exhibit at the Oconee Fair Grounds during the month of November."

Liberty County agent reported: " The greater portion of our time was spent collecting exhibits and arousing interest in our county fair which was held the 4-5-6 of this month. It was said by those who attended the county fair that it was the best that we have ever held. Our ladies won in prizes \$32.60 and our 4-H

girls won \$12.90 More adult and junior club members took part than ever before. We took a county exhibit to the Savannah State Fair and won second prize which was \$100.00."

Newton County agent reported: "Exhibited at Southeastern Fair, Atlanta, and won \$78.00 in premiums."

Paulding County agent reported: "Paulding County is very much encouraged at the success of their exhibit taken to the Southeastern Fair Atlanta, and they are going to work now getting ready for the better exhibit next year. Paulding came back from the Southeastern Fair and put on a good county fair."

Peach-Houston Counties Agent reported: "We feel very proud of the showing made by our counties at the Southeastern Fair. The following exhibits were taken to the fair: County canning exhibit, county ladies' ready-to-wear exhibit, and individual exhibit of 10 dozen eggs, 2 individual canning exhibits and 1 rural school exhibit. The exhibits received the following prizes: County canning third; 10 dozen eggs, third; ladies' ready-to-wear articles third; individual canning, eighth; and rural school exhibit, fourth."

Polk County agent reported: "Nearly all club members sent exhibits to the Southeastern Fair and most of them received prizes which fact has put new life into the club work. Those who did not receive prizes were not discouraged. They say that next year, they are going to give more time to club work so they can do better work. They won second prize at the Southeastern Fair on county canning exhibits; one member won third prize on individual displays of canning and another won seventh prize. One club boy who attended the fair this year, won fourth prize on his ham. More members attended the fair this year than in the past. 4 members sent cotton to the cotton show. The ladies won on their Ladies' men and childrens' ready-to-wear exhibits."

Washington County agent reported: "\$40.00 were won at the Southeastern Fair in premiums for the women's department of this county. 3 community fairs are planned for next month."

Sumter County Gets Home Demonstration Agent: September 1 Miss Folio E. Butler, began work as home demonstration agent in Sumter County and already her work is beginning to be felt among the people in Sumter County. Miss Butler received her A. B. degree from Spelman College last June. Miss Butler has organized six clubs for girls and two clubs for women. She also took a very creditable exhibit of eggs and clothing to the Southeastern Fair and received some prizes on these exhibits.

Narrative Report -- Girls' Club Work: The 4-H Club exhibit put on at the Southeastern Fair received many favorable comments and was the means of bringing a large number of 4-H club members to visit the fair. The exhibit was arranged in a

series of four booths. One booth was for first year, one for second, one for third and another one for fourth year, thus giving club girls of each year a chance to compete with other club girls of the same year. This arrangement gave the girls and the home demonstration agents in the different counties, the opportunity to compare the junior club work with the junior club work in other counties.

4-H Club Day at the Fair: Wednesday of the Southeastern Fair Week was known by us as 4-H Club Day and about 25 girls and several boys carried out a fine program arranged especially for the day. The program was as follows:

The Lord's Prayer -----All  
Song- America -----All  
The Flag Salute -----All

Song -- "Oh Father Won't You Buy A Cow?"  
Talk-- What Club Work Does -- Club Boy  
Song -- "Smile Awhile" (with motion)  
Club Poem ---"The Four Leaf Clover."

This program, the first of its kind ever put over by club members, was rendered in the large hall where our exhibit was being displayed and seemed to have made an impression upon all who were present. Mr. Farrell from the Washington D. C. office, was present and made a very encouraging talk to the junior club members. The Southeastern Fair Association very cordially invited the 4-H Club members from all over the state to spend this day visiting the fair and very kindly gave them free admittance to the fair grounds. The entire Extension force appreciated this kindness and sincerely thanks the Southeastern Fair Association for giving the girls and boys such a happy day.

The following reports were sent in for the month on junior club work:

Chatham County: "The junior work in the county is in a flourishing condition. They, too, displayed their work for the year and won \$30.00 in premiums. They are determined to do better work another year and hope to win more premiums."

Jackson County: "1 new 4-H Club organized with 14 members. 43 pounds of soap reported made by this club. 9 girls and boys are gone away to different schools and colleges, 4 to Athens Union Baptist, 1 to Georgia State College, Savannah and 4 to Athens High School."

Laurens County: "7 juniors have planted garden seeds this month. Fifty cents worth of bulbs were bought, 12 garments were made. One demonstration was given by junior club leader in cooking sour milk biscuits. 8 members present at this demonstra-

tion. 5 glasses of jelly were made by juniors from crab apples. 5 rooms scrubbed, walls papered, yards swept and lime used under house and in toilets. 3 kitchen shelves were built and 1 kitchen stool made."

Paulding County: "The club boys and girls of Paulding County took a very active part in their club work this month. In the county fair they had corn, cotton, potatoes, peanuts and cane. The girls put on canned goods and sewing and most of them received premiums. "

Peach-Houston Counties: "The junior work of Peach-Houston Counties led the state in Girls' 4-H Club work. The following club girls received prizes: Marie Amica and Lila Culler led in first year canning; Marie Ellis and Ules Howell led in second year sewing and canning. Flora Amica led in third year sewing and canning. Jennie Mae Howell, Freddie Lee Howell and Nancy Ragins led in fourth year sewing and canning. We received a total of 24 ribbons."

tion. 5 glasses of jelly were made by Juniors from crop supplies.  
5 rooms scrubbed, walls papered, yards swept and lime used under  
houses and in cellars. 3 kitchen shelves were built and 1 kitchen  
stool made.

Packaging County: The club boys and girls of Packaging  
County took a very active part in their club work this month.  
In the county fair they had corn, cotton, potatoes, beans and  
onions. The girls put on canned goods and sewing and most  
of them received premiums.

Peach-Houston Counties: The Junior work of  
Peach-Houston Counties led the state in Girls' & H. Club  
work. The following club girls received prizes: Marie Amos and  
Lisa Guller led in first year sewing; Marie Ellis and Ulla  
Howell led in second year sewing and canning. Their sister  
led in third year sewing and canning. Jennie Mae Howell,  
Freda Lee Howell and Nancy Rogers led in fourth year sewing  
and canning. We received a total of 24 ribbons.
